PROFILE

Senior Software Engineer skilled in creating robust applications across web and mobile platforms. Delivered scalable microservices architecture, leveraging Domain-Driven Design (DDD) principles to enhance business domain modeling. Championed test-driven development, optimizing code quality and maintainability. Specialized in utilizing Azure services and CI/CD pipelines for deployment efficiency, ensuring high-performance software solutions. Committed to driving innovation and excellence in software development.

EMPLOYMENT HISTORY

Mar 2023 – Present — Senior Software Engineer, Itim Group

- Spearheaded development of web and mobile applications.
- Championed microservices implementation for improved system architecture.
- Streamlined business domain modeling through DDD principles.
- Enhanced maintainability via strategic design patterns.

Nov 2020 – Mar 2023 — Sr. Software Developer, Geeks Ltd

- Spearheaded micro-service architecture and design pattern implementations.
- Championed test-driven development (TDD) and domain-driven design (DDD).
- Mentored team members, guiding task delegation and knowledge sharing.

Jun 2017 – Nov 2020 — Sr. Software Engineer, Javra Software

- Designed scalable applications using micro-service architecture.
- Improved deployment efficiency through Azure DevOps and TeamCity.
- Enhanced data access with ADO.NET and Entity Framework.
- Developed dynamic reports using SSRS and Crystal Reports.

Jun 2016 – Jun 2017 — Software Engineer, Nextbyte Technology

- Developed banking and financial applications using ASP.Net MVC and jQuery.
- Created reports using RDLC and JavaScript.

Mar 2015 – Jun 2016 — Full Stack Developer, Danfe Solution

- Spearheaded web application development and deployment projects.
- Built management information systems tailored to client needs.
- Designed and implemented Facebook and Windows applications.
- Architected and developed a restaurant management system.

Apr 2014 – Mar 2015 — Software Engineer, Moksha Studio

- Engineered scalable software solutions to enhance user experience.
- Optimized application performance through efficient coding practices.

EDUCATION

Sep 2015 — Nov 2018: MSc Engineering in Computer System and Knowledge Engineering, Tribhuvan University, Kathmandu

Jul 2009 — Dec 2013: Bachelors in Electronics and Communication Engineering, Tribhuvan University, Pokhara

SKILLS

C# — Expert

ASP.NET — Expert

Microservices — Expert

Azure — Expert

Domain-Driven Design — Expert

Test-Driven Development — Expert

JavaScript — Expert

Angular — Expert

CI/CD — Expert
